II. Description of Intervenor

The Arizona Utility Ratepayer Alliance was founded in 2015 to advise and represent
utility ratepayers on vital issues affecting their pocketbook. AURA is a nonpolitical, non-partisan
organization advocating on behalf of everyday Arizonans to ensure that utilities act responsibly
with affordable rates, subject to transparent regulation, while providing sustainable utility
services. Independent from the Governor's Office, Legislature, or any other government entity,
AURA is unique in its commitment to all Arizona ratepayers, advocating effective and efficient

1 utility oversight. AURA does not advocate any particular alternative energy production or
2 efficiency measures; rather it believes that all such prudent measures should be part of Arizona's
3 energy portfolio, with rates set accordingly but without undue ratepayer subsidies.

4 **III. Interest in Proceeding**

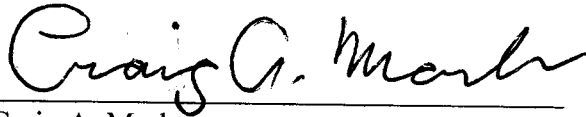

5 In this docket, Arizona Public Service Company ("APS") asks for authority to increase
6 rates. APS also seeks to make significant changes to its rate design including mandatory three-
7 part rates with demand charges for residential and small commercial customers. APS's rate-
8 design proposal and other measures may also discourage continuing customer energy-efficiency
9 implementation in its service territory. Further, APS proposes to modify its net metering tariff to
10 reduce so-called "subsidies," which could discourage alternative-energy usage. At this time,
11 AURA is particularly interested in these issues, but it reserves the right to take positions on any
12 other issues in this case.

13 No other party can adequately represent AURA's interests.

14 **IV. Requested Relief**

15 AURA asks that the Commission grant its Motion to Intervene.

1 **Motion to Intervene and Consent to Email Service** respectfully submitted on June 14,
2 2016, by:
